How it works:

Live online art classes

Classes are held over zoom, with a live instructor. Supplies will be shipped for free.

All supplies are provided!

Classes are 60 minutes, and all art supplies are provided and included in the class fee.

A new project every week!

Classes never repeat! Every week, students bring home new creative art projects.

* Projects from past, present, or future sessions

Class Starts After the Bell Rings at William Land Elementary!

(All supplies required for these classes will be mailed home at no charge)

Enrollment Options

About the program:

a) Curriculum and Supplies:

Our Art program is one of the most popular enrichment programs at William Land Elementary for several years now. Our curriculum includes several art mediums like watercolors and oil pastels too. Our art projects require special paper like water-color paper, or 10x13 cardstock paper for oil pastels, and we ship these to your home at no additional cost to you.

b) Instruction Mode:

Classes are all conducted online via tools like Zoom. We have been conducting these virtual classes for the past 6+ months now, and our staff is very well trained on conducting these virtual classes. For security, the Zoom links will be published via email a couple of days before the classes start. Our online classes have a very low teacher-student ratio of only about 1:10

c) Act fast!!

Classes start on October 5, but if you have signed up with us in the past, you know that our classes fill up very fast. Also, these Early Engineer sessions are specific to William Land only, and the price is a special price offered to your school only. So please do take advantage of this offer at your earliest availability.

Here is how to enroll:

a) Online enrollment at: <http://bit.ly/WilliamLandAfterSchool>

b) Call our office at 916-419-7644

c) Email us at hello@dreamclasses.org and give us your call-back number. We will call you as soon as we read the message.
