My family is interested in a Share of Cost Before School Program option at William Land Elementary School since there will no longer be a grant based (free) program.			
My family is interested in a Share of Cost After School Program option at William Land Elementary School since there will be a reduction of slots available within the grant based (free) program.			
I am interested in participating in a Share of Cost After School Program to increase access for families that qualify for free and reduced meals.			
I plan to register and participate in the lottery for the ASES [grant based/free] program.
