

2024-25 Making Engineers

This class is for 5th and 6th grade students and consists of making various objects out of paper, styrofoam, cardboard and wood in order to study 3-D shapes and movement.

Class Format

The class meets in Room 27B and is limited to 12 students.

Class Content

The students will be making various objects including 3-D shapes out of paper, cardboard automata with moving gears, spinning and gliding objects, and turning images.

Tools Used

Students will be using scissors, scotch tape, rulers, pens, and hot glue guns.

Class Cost

The class is free.

Class Schedule

Tuesdays 3:15 – 4:15 in Room 27B. The first class will be on October 1, 2024.

How to Apply
